
PROFESSIONAL SUMMARY:

Newly grad graphic designer with a **3.91 GPA** and **4 years of experience in live-event production**. Unique background combining technical design proficiency with hands-on leadership and trade skills in high-volume, fast-paced environments (festivals of 25,000+ attendees). Adept at translating complex—and ever evolving—production plans into physical results under strict timelines and with a good attitude. **Highly motivated, flexible, and available for evening, weekend, and holiday shifts required for arena operations.**

EDUCATION

December 2025

Bachelor of Science in Arts, Media & Technology | GPA: 3.91

- **Core Focus:** Brand Systems, Typography, Motion Graphics, and Digital/Print Production
- **Applied Skills:** Adobe Creative Suite (Photoshop, Illustrator, InDesign), Motion Graphics, and Video Production

WORK EXPERIENCE

Video Crew Lead, [REDACTED] June 2023 – Current

- Lead crew to execute efficient set changes for festival performances with over 25,000 attendees
- Direct and coordinate with teams of 8 to 16 under high stress conditions to meet client needs in a precise and efficient manner
- Facilitate direct line of communication between production management and local labor management teams
- Interpret production plans and ensure accurate implementation under strict timelines
- Ensure workers abide by safety standards and coordinate break/lunch times

Stage Technician, [REDACTED] May 2022 – September 2025

- Collaborated with team members on dozens of shows in high-stress, time-sensitive live production environments
- Executed interactive art installations based on detailed blueprint interpretation
- Implemented light plot designs according to lighting designer specifications
- Configure and maintain stage gear and resolve technical issues under strict timelines

Inspector and Remediation Technician, [REDACTED] January 2021 – June 2022

- Served as the first point of contact for clients, delivering professional and personable customer service
- Compiled thorough, accurate inspection reports detailing project scope, requiring high attention to detail and professional documentation
- Optimized inventory management system to guarantee a constant supply of materials for scheduled projects
